Maryland COVID Vaccine Summarized Information as of 2021-02-10

The latest Maryland guidance on vaccinations is located here:
https://covidlink.maryland.gov/content/vaccine/

Vaccination scheduling is currently first come, first serve. Individuals can and are encouraged to attempt to get a vaccine appointment through **any** method they are eligible for:

- Private company registration (such as Giant / Safeway / Rite Aid)
- Workplace distribution for essential workers
- County registration
- Nursing home resident registration
- State Mass Vaccination site registration

The Maryland search tool for all vaccination sites is located here.

While the state is currently in Phase 1C, many counties are still only in Phase 1B. This table represents a summary of information about the current phase and what the High Risk / Age inclusion criteria are for Phase 1C for the county government. Most counties allow registration for county provided doses for anyone who is a resident or working in the county that meets their specific county Phase definitions. Note, county phase restrictions only apply for registration through the county. Many commercial providers are **not** following the guidance for the county in which they are located, though be aware that some are.

| Location | Phase | 1C Inclusion | | Link |
		Age	All Ages High Risk	
Anne Arundel	1B	75+	No High Risk	https://aahealth.org/vaccine-allocation/
Baltimore	1B	65+	No High Risk	https://coronavirusvaccineoutreach-bc-gis.hub.arcgis.com/
Howard	N/A	65+	Limited High Risk	https://www.howardcountymd.gov/Departments/Health/MM-Alerts-and-Recalls/COVID-19-Vaccine
Montgomery	1B	65+	Most Conditions	https://www.montgomerycountymd.gov/covid19/vaccine/
Prince George's	1C	65+	No High Risk	https://www.princegeorgescountymd.gov/3730/COVID-19-Vaccination

Private Company Vaccine Registration Links

This list provides the direct links for some of the easiest-to-schedule-with commercial providers. While many of the websites indicate to check the next day, that is an inaccurate message as appointments are posted multiple times throughout each day despite the message. The two main ways we have seen appointments get listed are:

- Single appointments due to someone cancelling or rescheduling
- Bulk appointments due to new shipment of vaccines

If you are checking these links yourself, it is important to remember that while they indicate no appointments available for many hours at a time, when an appointment does become available it is generally available only for a few minutes before it is taken.
